

Testimonials

Just look at what artists, students and instructors say about Paint-By-Grids!

"My art has all the passion of my life. Although my work is, in theory, on the cutting edge -- I find that the Paint-By-Grids method makes it easier and practical in many regards."
M. James F. Plouf, Artiste-peintre, Paris, France

"Paint-By-Grids is real cool and fun. Its better than drawing a picture all sloppy because you can be organized. It's also fun because all you have to do is use a ruler to make your lines for the squares. And all you have to do is draw the shapes that go in each square."

Spencer Gil, 10 years old, San Clemente, CA

"Paint-By-Grids is the best thing for me as an art student, it's helped me very much. It's been very easy to draw, since I've never had any lessons. So for me it's great."

"I never would have attempted this painting without Paint-By-Grids. Getting the branches and the leopard in proportion would have been very difficult. I am ready for my next challenge thanks to Paint-By-Grids." Marena Lyster, San Clemente California

"As an instructor of fine art, I have found Paint-By-Grids to be a valuable tool in my studio. All of my students (children and adults of all experience levels) love the Paint-By-Grids system. This tool saves time! It is easy to understand and apply. I recommend it to everyone!"
Von Lortz, Artist/Instructor
